The Facts About Peruna.

Is Peruna an alcoholic beverage in disguise? Is it possible to use Peruna as a substitute for whiskey? Do people buy Peruna and use it as a toddy, or a bitters, or a bracer?

It would be the easiest thing in the world for any one to demonstrate the falsity of such statements. Let any one go to the drug store and purchase a bottle of Peruna. Let him undertake to use it as a beverage, or take this remedy in doses considerably larger than those prescribed on the bottle. Would the result be alcoholic intoxication? Nothing of the sort. Let any one try it and see.

Peruna is a medical compound quite heavily loaded with medicinal ingredients. If taken in doses larger than prescribed it would produce a positive BONDS drug effect. No one could take it as a beverage. If any one doubts these statements, try it and see. We know that Peruna cannot be used as a beverage; that it will not intoxicate; that it cannot be used as a substitute for liquors. We guarantee that PERUNA CONTAINS NO CHRAP WHISKEY-Bearing 5 Per Cent. Interest-Pan-Ger. OR ANY OTHER WHISKEY, for that matter.

It contains a small per cent, of cologne spirits, absolutely essential to dissolve and hold in solution medicinal ingredients, but the drugs contained in Peruna prohibit its as as a beverage. It would be the easiest thing in the world for any one to demonstrate this if they chose to do so.

Peruna is sold everywhere. THE INGREDIENTS ARE PLAINLY

PRINTED ON EACH BOTTLE. It has been said over and over again that chemists have analyzed Peruna and found it to contain only cubels and whiskey. Now we challenge any chemist to demonstrate any such statement. Let any one who has even a smattering knowledge of chemistry purchase e finance to negotiate with the Rothschilds bottle of Peruna and see whether or not it contains whiskey, find out for binfor a loan of \$50,000,000, the funds to self whether or not it is composed of cheap whiskey and cubebs. Of course, he used for the conversion of the out. cubebs is one of the ingredients of Peruna, but there are many other ingredients. It contains hydrastis canadensis, corydalis formosa, collinsonia, and at least four other medicinal ingredients. To be sure, no chemist could so analyze Peruna as to be able to identify the various medicinal ingredients. This is beyond the ability of any chemist. But any ordinary chemist would be able to say that Peruna is heavily leaded with medicinal ingredients of some kind in addition to subeba.

Now why are these statements repeated when their falsity could be so easily demonstrated? Simply because there is continued hostility toward Pe-Maxirid, Feb. 5 .- The government yes- runs on the part of the medical profession. Very likely the magazines which erday issued a decree authorizing the took up the crossade against Peruna and denounced it as a cheap beverage reopening of the free schools, the conduct were misled by statements of the medical profession. Probably they were of which is in keeping with the law. sincere in their attitude towards it. But now, after all these things have been They were closed following the revolu- said and refuted, it would seem to be in order for such people to use a little fairness and common sense in the matter.

Every time any one says that Peruna is nothing but cheap whiskey and rubebs he is telling a lie, an absolute falsehood. Most people intend to speak the truth. But the prevalent habit of repeating other people's statements, without investigation as to their truth, has led many well-meaning people to say these false things about Peruna.

Used according to the directions on the bottle, PERUNA IS A SAFE AND RELIABLE CATARRH REMEDY, but, like any other good medicine, if taken in excess of those doses, it will produce drug effects very unpleasant to

It is therefore up to every honest person to quit making such statements concerning Peruna, or acknowledge that he is repeating slanders about which he knows nothing. One might just as well say that Caster Oil is an intoxicant; that if taken in large enough doses it will operate as a "booze." If people never tried to see, but simply repeated such statements about Castor Oil, the majority of people would come to believe them. It is no easier to demonstrate such a statement about Castor Oil than it would be about Peruna.

Any one who takes Peruna knows that such statements are false. To say that Perena is cheap whiskey and cubebs may constitute good material for jokes on the vandeville stage, but there is no excuse for any one who pretends to be truthful saying over again this oft-repeated falsehood.

In every walk in life discrimination between the true and the false wins and enjoys success. In questions of form, of style and of values, whether financial commercial or medicinal, the judgement of the men and women who select and appreciate and utilize the true and genuine product, proves most profitable and most satisfactory to themselves and to all who follow them.

Therefore, in connection with so important a subject as

the physical well-being of the people, the most eminent physicians insist on full information as to the wholesome nature and truly beneficial character of the component parts of the remedies used and prescribed by them, and the wise manufacturer not only supplies them with the knowledge desired, but also combines for them in proper proportions the very substances most approved by them and omits every objectionable substance. The world-wide acceptance of Syrup of Figs and Elixir of Senna by physicians and the well-informed of the world, as the best of family laxatives, is due to the universal satisfaction which it has given for more than a quarter of a century and also to the fact that it is a remedy of known quality and known component parts and to the further fact that the California Fig Syrup Co. presents it to the world simply as the ideal strengthening personal laxative to cleanse and sweeten the system gently, yet effectually, and to dispel colds and headaches and to assist in overcoming constipation. To get its beneficial effects - always buy the original and genuine, for sale by all leading druggists. The full name of the company - California Fig Syrup Co.- is always plainly printed on the front of every package.
